DETAILED ACTION

Claims 1-4, 6, 8-18, 20-22 are pending in the instant application and subject to the following restriction requirement.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, 6, 8-18, 20-21, drawn to an isolated polynucleotide comprising a nucleotide sequence ~90% homologous to a sequence selected from SEQ ID NOS: 1-3, derived from a lysogenic phage of *M. Carbonacea*, recombinant vectors, host cells and methods of transforming host cells, classified in class 435, subclass 471 & 320.1; class 536, subclass 23.1.
- II. Claim 22, drawn to an isolated polynucleotide at least 90% homologous to SEQ ID NOS: 4-6, derived from the phage attachment site for a lysogenic phage of *M. Carbonacea*, classified in class 536, subclass 23.1.
- III. Claim 22, drawn to an isolated polynucleotide at least 90% homologous to SEQ ID NOS: 7-10, derived from the phage attachment site for a lysogenic phage of *M. Halophitica*, classified in class 536, subclass 23.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Groups I-III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the

Art Unit: 1636

different inventions are not disclosed as usable together and have different modes of operation, functions and effects due to their different sequence and structure. Each of the nucleic acids is drawn to a unique sequence having a distinct structure that yields distinct applications.

Because these inventions are distinct for the reasons given above and the search required for Groups I-III for each of the other groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gerald G Leffers Jr., PhD whose telephone number is (703) 308-6232. The examiner can normally be reached on 9:30am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Remy Yucel can be reached on (703) 305-1998. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
